

Roof Warranty Notification to Owner

Application Number: _____

Property Address: _____

Your contractor has applied for a permit to install a solar heating or photovoltaic system anchored to the roof structure of your home. As a condition of issuing such a permit, the City requires that you acknowledge that you are fully aware of the following issue:

- If your roof covering is under warranty – The warranty on the roof covering may be voided by the roofing firm that holds that warranty and/or the roof covering manufacturer if you permit anyone to penetrate the roof covering (as proposed by your contractor) without the consent of the warranty holder. You should read your roof covering warranty very carefully and/or contact the roofer that holds the warranty prior to initiating this work to make sure that you are not jeopardizing any remaining warranty on the roof covering. **The roof warrantor may wish to coordinate the penetration work with the solar or photovoltaic contractor to preserve your warranty.**

Please acknowledge that you have received and read this document by signing and dating this form below. Your contractor will need to submit this notification with the permit application. If you have any questions regarding this matter, please do not hesitate to contact us at 561-393-7935.

Solar Water Heating/ Photovoltaic Contractor Affidavit for Structural Roof Attachment

Application Number: _____

Property Address: _____

By his/her signature below, the Contractor/Qualifier does affirm and certify that the rooftop solar water heating or photovoltaic system was structurally attached under my supervision; and the mounting brackets are anchored to the top truss chord and/or blocking in strict accordance with engineered attachment details submitted with this permit. I further affirm that proper roofing sealant was applied to the mounting brackets in accordance with the aforementioned details.

NOTE: This affidavit must be submitted at the time of final inspection along with photographs demonstrating code compliance.
